- Systematized operational workflows, reducing manual data entry by 40% for a 6-person team.
- Architected a digital lead-to-project conversion pipeline, slashing manual handoff transition times from 2 days to under 30 minutes.
- Constructed highly scalable RESTful APIs utilizing the MVC architectural pattern and implemented reusable middleware for authentication, validation, and error handling, accelerating new feature deployment by 30%.

TECHNICAL PROJECTS

MoniStream (Music Streaming App) | Next.js 15, React 19, MongoDB, Tailwind CSS, Zustand

- Built a full-featured music streaming web app powered by the YouTube Data API, featuring playlist creation, favorites, and a personalized recommendation engine driven by listening history and trending tracks.
- Developed real-time synchronized lyrics (via IrcLib), with JWT-based authentication secured through HttpOnly cookies.

FIY-Talks (AI Chatbot) | Next.js, Node.js, Express.js, MongoDB, Gemini AI

- Developed an AI-powered research assistant enabling contextual conversations across YouTube videos, Instagram posts, and local PDF documents using Google Gemini AI, with secure JWT-based authentication (access & refresh tokens) via HTTP-only cookies.
- Engineered rate limiting and brute-force protection with express-rate-limit and helmet, and designed a fully responsive, glassmorphic UI.

Lead to Ledger (PMS) | Next.js, MongoDB, Vercel

- Programmed a custom Project Management System to digitize enterprise workflows, currently serving 6+ active users.
- Managed processing and storage for 200+ secure records spanning project, task, and financial modules.

CraftyCure (E-Commerce Platform) | React.js, Node.js, Express.js, MySQL, Firebase, Razorpay

- Built a full-stack digital marketplace for handmade goods featuring live order tracking and a dedicated seller dashboard supporting 35+ concurrent users.
- Integrated Razorpay API for secure payment processing and Cloudinary for optimized media storage.

AI-Powered Healthcare Chatbot | Python, Scikit-Learn, NLP

- Deployed an NLP-driven chatbot tailored to triage patient inquiries across 10+ medical categories.
- Achieved 85%+ intent classification accuracy utilizing TF-IDF vectorization and Logistic Regression models.

CERTIFICATIONS

- AI + Developer | AI Certs (2025) – Completed with distinction; covered Deep Learning and Applied AI with Python.
- Design and Analysis of Algorithms | NPTEL & Skill India (2024) – Ranked in the top 10% for complexity analysis and dynamic programming.
